

## What caught my attention about this project?

Technical project, little detail available, short consultation period

Consultation invite didn't ask any *questions*

Public response was very strong (St Henri history is relevant here)

Are expectations aligned about this process?

# A continuum of public consultation approaches

**Low citizen engagement**

**High citizen engagement**

Questions, clarifications

*Citizen input*

Project priorities, possible solutions

Generate plan by themselves

*Expert input*

Structure citizen inputs, supply technical inputs

Granting social license

*Citizen role*

Co-creating

Linear

*Process*

Iterative

## So, what are you expecting from us?

What decisions remain to be made?

What inputs from citizens are required in order to make them?

Based on our inputs, what does the rest of the process look like?

And what are the citizens' expectations?
